

Mohit Gupta

B.Tech in Information Technology at VIT, Vellore

Highly motivated IT undergraduate with a conceptual knowledge of Data Structures & Algorithms. I look forward to working in an environment conducive to learning opportunities. I have developed a passion in the field of Web development and aim to develop, deploy websites with effective Search engine Optimization with well-organized content.

PERSONAL PROJECTS

Netflix Clone

- Designed and developed the UI (User Interface) similar to Netflix.com using **React.js**
- It fetches the data of various movies and TV series from an online API
- URL - lamMohitGupta/Netflix-clone

Covid19 Indian website Clone

- Designed and developed a clone of Covid19India.org using JavaScript, Node.js, MongoDB and Mongoose.
- A few of the features include displaying the Active, Confirmed and Deceased cases state wise in the form of a table.
- URL - lamMohitGupta/Covid19-Clone

Ecommerce website

- This helps people find the right protective gear to fight against the Covid 19. Provides the user with various options of sanitizers, masks and much more.
- Stripe payment (an API) also enabled. (No real transactions take place)
- Tools & Technologies Used: PHP, Web APIs, Postman, GIT, JavaScript.
- URL - lamMohitGupta/E-commerce

WORK EXPERIENCE
